

GENERAL SAFETY PROGRAM

Accidents - It Can't Happen to Me

Long Island Productions, c.1994

Are your employees aware that human life is fragile? Reminders that bad luck plays no part in accidents and that they can be prevented. Encourages personal responsibility for safety with real-life examples such as, behaviors that cause accidents and safety attitudes and practices (including safe lifting).

Video - 10 minutes

ID Number: 0796-037

Accidents - It Can't Happen to Me - Spanish

Long Island Productions, c.1994

Video - 5:37 minutes

ID Number: 0796-038

The Choice Is Yours

National Safety Council

An overview of water safety applied to situations where hazards are not normally noted such as recreational boating and fishing. This film stresses the importance of life vests. A good water sport safety film.

Video - 13 minutes

ID Number: 0195-006

Communication Skills

National Safety Council

An awareness film addressing the importance of good communication skills in administering initial safety training or indoctrination. Briefly outlines types of communication and bias against hearing what was actually said. Appropriate only as an introduction.

Video - 5:37 minutes

ID Number: 0195-007

Conducting a Safety Audit - Short

Long Island Productions, Inc., c.1994

- Assessment & evaluation rules for an organization's safety program
- Employee perceptions of safety as a priority
- Auditing your medical & first aid procedures
- Auditing without assigning blame

Video - 5 minutes

ID Number: 000B-005

Crime Prevention

National Safety Council

A brief overview of crime prevention. Reviews key steps for crime prevention in the home, on the streets, in the automobile and in public places. A good film for off-the-job safety sessions as a "lead-in."

Video - 4:43 minutes

ID Number: 0195-008

Criminal Liabilities for Safety Supervisors - Short

Long Island Productions, Inc., c.1994

- Raise supervisor awareness of his/her safety responsibilities
- Outlines California law regarding safety violations

Video - 5 minutes

ID Number: 000B-006

Critical Moments

Visucom Productions, Inc.

A program for supervisors and managers on how to effectively communicate hazard information to employees. How to avoid communication breakdown.

Video - 19:25 minutes

ID Number: 0198-123

DSM Contractor Orientation

DSM Chemicals, c.1992

An orientation program that describes the guidelines, rules and procedures for visitors and contractors including sign in, identification procedures, contraband, personal protective equipment, emergencies, medical facilities, first aid, evacuations, respiratory protection, Material Safety Data Sheets, hazardous materials identification system, plant coordinator monitor, hot work permits, fire prevention rules, lockout/tagout, confined space, excavations, crane safety, safety belts, ladders, scaffolds and gas cylinders.

Video - 19 minutes

ID Number: 0892-010

Dog Bite Prevention

Long Island Productions, Inc.

By making informed and professional decisions in dealing with

dogs encountered on the job, this very real hazard can be minimized. Includes treating all dogs as hazards and respecting them and their turf; observing presence of dog and its behavior; preventive practices and what to do in the event of a bite.

Video - 10 minutes

ID Number: 0796-026

Employee Safety Manual/Douglas County School System

Douglas County School System, Douglasville, Georgia

This comprehensive safety program includes those elements that make up a functioning safety program. Program elements include statement of policy, overview of program, responsibilities, safety committees, employee training, accident investigation, workers' compensation, vehicle operations, fire protection, hazardous materials and safety procedures.

Manual - 54 pages

ID Number: 0293-171

Employee Safety Orientation - Short
Long Island Productions, Inc., c.1994

- Avoid accidents due to inattention or short cuts
- Provide counseling, stating consequences & time allowed for behavior correction
- Training & authorization required for use of equipment and chemicals
- Rules of fire prevention
- Prevention of back injuries

Video - 6 minutes

ID Number: 000B-008

Employee Safety Orientation II
Long Island Productions, c.1992

Meet OSHA requirements for training in general hazards regarding proper clothing, machine guarding, accident reporting and much more. Works as either a new-hire orientation or a refresher for experienced employees.

Video - 15 minutes

ID Number: 0198-132

Getting the Job Done
Shepherd Spinal Clinic, c.1986

Dispels the myth that people with spinal injuries:

- require a lot of special consideration on the job
- Can only hold low level jobs
- Lack determination and will power
- Increase employer insurance costs

Video - 12 minutes

ID Number: 0198-116

Heat Stress

Long Island Productions c.1992

Excellent video for explaining the potential heat injury dangers of working in hot environments or with hot processes. Film covers how the body deals with heat and focuses on recognizing symptoms of heat related injury (such as heat stroke or heat exhaustion). The film gives first aid requirements and preventative steps.

Video - 9:30 minutes

ID Number: 0195-054

Heat Stress - Spanish

Long Island Productions c.1994

Video - 12 minutes

ID Number: 0796-014

Heat Stress II

Don Brown Productions, c.1990

Defines heat stress and tells how to keep body heat at a safe limit. Shows physical and mental effects of overheating and discusses precautions for reducing heat stress.

Video - 7 minutes

ID Number: 0198-104

Housekeeping and Accident Prevention - 1991

Long Island Productions Inc. c.1991

Humerous presentation of the fundamentals of good safety housekeeping and accident prevention. Includes safety awareness and attitude, potential hazard evaluation, chemical hazards and proper use and maintenance of tools.

Video - 15 minutes

ID Number: 0796-020

Housekeeping and Accident Prevention - 1994 - Spanish

Long Island Productions Inc. c.1994

Video - 12 minutes

ID Number: 0796-019

Listening Skills

National Safety Council

A brief overview of the importance of listening when people talk and the importance of listening in safe operation. The four steps to good listening are reviewed. This film is a good training "lead-in" to a listening training session for safety purposes.

Video - 4:09 minutes

ID Number: 0195-020

Lockout and Tagout Procedures

N. Pacific Film & Tape, Video Production Group in conjunction with Chevron, c.1986

Describes in general the logic behind a good lockout/tagout system and demonstrates in a plant environment appropriate uses by operators, electricians and mechanics lockout/tagout procedures including tagging and other procedures. Good introductory video regarding lockout/tagout rules and procedures.

Video - 8 minutes

ID Number: 0892-051

Lockout/Tagout - 1994

Long Island Productions, Inc., c.1994

An excellent OSHA regulation and application training video for any employer. The setting is industrial with typical machinery and covers:

- Machine energy exposures and the OSHA Lock Out regulation.
- Development of an exposure control plan
- Types of energy we encounter
- Authorized and affected employees
- Actual procedures for lockout/de-energization
- Summary review of procedures

Video - 17 minutes

ID Number: 0195-050

Lockout/Tagout - Spanish

Long Island Productions, Inc., c.1992

Video - 19 minutes

Loss Control For The Graphic Arts Industry

The Utica National Insurance Group, c.1990.

A video that promotes Utica National's loss control services and includes the seven major elements of a loss control program including: management commitment, communication, safety training, safety inspections, accident reports and loss reviews, health and medical considerations and employee selection.

Video - 8 minutes

ID Number: 0892-024

Loss Control Program Guideline for Farmers Furniture

Palmer & Cay/Carswell, Inc. and Farmers Furniture, c.1991.

A complete safety program including a safety policy statement, employee responsibilities, accident investigation procedures, vehicle fleet activities, rules, regulations, procedures and forms.

Manual - 60 pages

ID Number: 0892-028

Loss Control Programs

PCC Airfoils, Inc., c.1991

Comprehensive safety program elements used in a manufacturing environment including safety audit methods, lockout/tagout methods, hazards communications, respiratory protection, safety checklist, ergonomics, environmental considerations, safety and health committees and employee physical capabilities screening form.

Manual

ID Number: 0892-023

The Mark of a Professional Supervisor

ITS System Corp., c.1990

Discusses personal liability for supervisors concerning on the job injuries when safety regulations are ignored or short cuts are taken.

Video - 22 minutes

ID Number: 0198-117

A Message About Safety From Ron Hogan

Ron Hogan-CEO and Georgia-Pacific Television, c.1991

Management's commitment to safety at Georgia-Pacific explaining what it is, who is responsible and the corporate culture fostering this safety message.

Video - 4 minutes

ID Number: 0892-030

Occupational Health Issues - Short

Long Island Productions, Inc., c.1994

- Types of hazardous materials: paints, solvents, dust, asbestos
- Protecting against chemical infections
- Noise levels: guarding against hearing loss

Video - 5 minutes

ID Number: 000B-016

Off The Job Safety

National Safety Council

A brief overview of home safety considerations and attitude, outlining the basic need for safety rules at home as well as at the job. An awareness film for employees to remember safety is not just for the job and that by practicing safety at home, they will impact their abilities to develop safe job habits as well.

Video - 3:58 minutes

ID Number: 0195-022

OSHA Recordkeeping - Robert Whitmore, Questions and Answers

OSHA and Bureau of Labor Statistics

A lengthy question and answer discussion and seminar regarding recordkeeping rules, procedures, guidelines and methods for OSHA 200 logs.

Video - 120 minutes

ID Number: 0293-124

Outdoor Safety

Safety Shorts, c.1991

Covers outdoor dress and precautions to avoid snakebite, bee stings, spider bites, ticks and poisonous snakes.

Video - 5 minutes

ID Number: 0198-134

Partners in Safety

OSHA U.S. Department of Labor

This video provides an overview of the OSHA Voluntary Protection Program (VPP). It emphasizes a commitment by labor, management and OSHA in performing collectively towards a more safe working environment. It describes the three levels of participation in the program including Star, Merit and Demonstration.

Video - 17 minutes

ID Number: 0293-118

Personal Protection Equipment

National Safety Council

A brief overview of the need for key categories of PPE, eye protection, shoes, hard hat, gloves and ear muffs. Not considered appropriate for OSHA required PPE training. Appropriate for awareness safety talk.

Video - 4:43 minutes

ID Number: 0195-023

Personal Protective Equipment - 1995

Long Island Productions, Inc., c.1995

A good video for OSHA required PPE training; to be used in conjunction with employer specific additional PPE applications. The video subject matter covers general industry applications.

This video is a brief overview for each type of PPE required by OSHA with the exception of fall protection devices. Items covered in this video include: eye, ear and respiratory protection, safety shoes, hard hats and protective clothing.

Video - 13 minutes

ID Number: 0195-047

Practical Loss Control Leadership

Frank E. Bird, George L. Germain

A comprehensive textbook describing safety management. Principles include cause and effects of loss, management control of loss, accident/incident investigation, inspections, job task analysis, employee training, property damage control, fire loss control and others.

Book - 441 pages

ID Number: 0892-026

Preventing Workplace Violence

Georgia Department of Labor - Office of Communications
c.1995

Manager training video to be used in conjunction with a company workshop on workplace violence causes and prevention. This video was filmed at the conference on Violence In The Workplace and features presentations by a sociologist, a psychologist, an occupational nurse and an individual from industry, all outlining causes and prevention. Retail and health care operations were the key illustrations used in these presentations and their statistics but the video relates to all industries, office environments as well as service related environments.

Video - 32 minutes

ID Number: 0195-053

A Program of Employee and Property Protection

Utica National Insurance Group

A written safety program that identifies key program elements including management commitment, communications, and safety training. Program covers safety inspections, accident reports, loss reviews, health, medical and employee selections that are essential to a successful safety program.

Manual - 18 pages

ID Number: 0293-106

Reducing Unsafe Acts - Short

Long Island Productions, Inc., c.1994

- OSHA regulations for training after an accident
- National Safety Council study of accident causes
- How employee unsafe acts cause accidents
- Cause determination rather than fault-finding
- Post-accident counseling

Video - 6 minutes

ID Number: 000B-017

Return to Work For Employees

Milt Wright & Associates, Inc., c.1996

Employees learn that the return to work process can be a positive experience, how to take control, rather than to feel the victim of circumstance and to communicate their needs to the supervisor and treating physician.

Video - 18 minutes

ID Number: 0796-055

Return to Work For Supervisors

Milt Wright & Associates, Inc., c.1996

Supervisors learn that return to work benefits both the employer and employee, that alternatives for transitional employment during the recovery process can be simple and inexpensive and that paying an employee for 70% productivity is better than paying him to stay at home.

Video - 17 minutes

ID Number: 0796-056

Return To Work Something Special

Wausau Insurance Companies - Communication Network

"Return to Work Something Special" stresses the importance of a good return-to-work program. Testimonials from a physician and a policyholder are included.

Video - 41 minutes

ID Number: 0195-046

Returning The Injured Worker To The Job

State of Oregon

How six Oregon employers control workers' compensation costs through successful return-to-work programs. Interviews with personnel in each company relate key practices which helped contain costs by early return-to-work programs. The film includes a discussion by both hourly employees and management relating the benefits of their programs. Industries shown include plastic injection molding, logging and forestry products, construction and food packaging.

Video - 20 minutes

ID Number: 0195-039

Safe Work Practices for Contractors

North Pacific Film & Tape, Video Productions Group with Chevron Corporation, c.1985

This contractor orientation overview covers general safety rules, including work hours, general work permits, driving and parking motorized equipment, fire extinguishers, smoking rules, medical contacts, emergencies, approvals to use open flames, and other general rules enforced at Chevron terminal facilities. Can be used as an introduction for contractors.

Video - 7 minutes

ID Number: 0892-011

Safety Attitudes

National Safety Council

The film points out the danger of being preoccupied on the job. A good short safety meeting reminder for employees during a brief safety meeting about "attitude."

Video - 3:47 minutes

ID Number: 0195-026

Safety By Design

Chevron - Safety in Design Manual

A brief film from the Chevron Safety in Design (SID) Manual. This film briefly covers OSHA regulations applicable to the petrochemical industry and facilities (OSHA CFR 1910 categories). Film briefly covers design, construction, retrofitting and maintenance. Not recommended for training outside petrochemical industry.

Video - 30 minutes

ID Number: 0195-027

Safety & Loss Control Program and Federal OSHA Construction Standards CFR Par 1926

C. W. Mathews Contracting Co., Inc., c.1992

A complete written safety program describing a wide range of safety activities, responsibilities, procedures and methods utilized by all employees and all departments of this contracting company.

Manual - 22 pages

ID Number: 0892-043

Safety First - A Message From Ron Hogan

Georgia-Pacific, c.1991

The Vice Chairman explains in general the corporate philosophy of safety at Georgia-Pacific. Emphasizes safety above job quality and production goals. Stresses safety by all employees at Georgia-Pacific.

Video - 6 minutes

ID Number: 0892-029

Safety Gear: Eye & Face Protection

AIMS Media

A short safety meeting video or preface video for detailed eye and face PPE (Personal Protective Equipment) training. Video does not meet OSHA regulations for PPE training, but presents important information on eye and face safety gear, national injury statistics, hazard categories and a display of many of the industrial applications and processes which require specific types of eye and face PPE protection

Video - 11 minutes

ID Number: 0293-181

Safety - What Could Go Wrong?

Long Island Productions, c.1995

As employees get too comfortable with their jobs, they may neglect good safety practices. Reminds them that no matter how well they know their jobs, things can go wrong. Includes, unsafe conditions and housekeeping, signs, labels and tags, tool and equipment safety, working with electricity, materials handling, lifting and back safety, hazardous chemicals and gases.

Video - 14 minutes

ID Number: 0796-040

Sexual Harassment: Serious Business

Advantage Media

Tel-A-Train, Inc.

This video shows all employees that preventing or eliminating

sexual harassment in the workplace will benefit them and their organization. It shows the negative impact of a hostile work environment on the team, how to deal with quid pro quo harassment and how to confront a situation and stop offensive behavior.

Video - 25 minutes

ID Number: 0796-006

Shortcuts to Disaster

Bureau of Business Practices, c.1989

Some shortcuts that could lead to injury:

- Cutting through restricted areas
- Failing to inspect equipment before using
- Using wrong tool for the job
- By-passing safety shields
- Not wearing personal protective equipment

Video - 20 minutes

ID Number: 0198-124

Stop The Bleeding

Safety Shorts

Film discusses the first priority of first aid: "stop the bleeding," and reviews key steps for direct pressure practices. Pressure point technique is reviewed including locating the pressure points and how to stop the bleeding at each one (arm, leg and groin). Treatment for shock is also reviewed. An excellent first aid film for short safety meetings or as a "lead-in" to a more detailed first aid program.

Video - 5 minutes

ID Number: 0195-031

Stress and Productivity

MJ Communications, Inc., c.1989

A Manager's guide to recognizing, controlling and trying to alleviate as much stress as possible for the worker. The difference between short term and chronic stress. Shows how to identify and take action to help with situation.

Video - 25 minutes

ID Number: 0198-137

Taking Control - The WC Return to Work Connection

Milt Wright & Associates, Inc., c.1993

Demonstrates practical approaches to reducing workers' compensation costs, enhancing employer and employee communication, implementing effective return to work, changing the workers' compensation system into a winning process.

Video - 26:33 minutes

ID Number: 0796-028

Travel Safe

Long Island Productions, c.1996

A must see for your business travelers. Encourages awareness

of traveling hazards. Includes, securing your home for a trip, driving safely, flying and airport safety, safety concerns in hotels and walking in unfamiliar environments.

Video - 24 minutes

ID Number: 0796-041

Tree Trimming Safety Short

Long Island Productions, c.1994

- Hazards: falls, contact with energy sources, falling limbs, high noise levels, snakes
- Tool maintenance
- Personal protective equipment
- Clearing escape paths during tree felling

Video - 6 minutes

ID Number: 000B-021

The Workers' Compensation Connection

American Medical Association, Jack Lieb Production and Wausau Insurance Company, c.1983

Using a series of staged conferences and discussions, the narrator describes the importance of returning employees to work to help reduce cost. Emphasizes teamwork, cost containment, early return to work techniques and overcoming the obstacles of injury by teamwork between injured employees, doctors and employer.

Video - 31 minutes

ID Number: 0892-077
